CAREER OBJECTIVE

Third-year Computer Science student seeking to apply my programming, problem-solving, and web development skills in a challenging environment, while continuously learning and contributing to organizational growth. Enjoy building creative digital solutions and combining technical knowledge with design thinking.

CAMPUS INVOLVEMENT / EXPERIENCE

Website Team Member

Mithibai Cultural Committee

- 2026
- Working as a designer and developer for the committee's website, creating visual designs and building out the site to support cultural committee events and activities.

Committee Member

Techspark – College Fest

- 2025
- Worked as a member of the events department, organizing and hosting events for the college fest, coordinating logistics and supporting smooth execution of activities

PROJECTS

SignFrame (Sign Language Learning Platform)

2026

<https://github.com/FlaviaRodrigues-05/signframe>

Built a web platform for learning sign language and translating text into sign language through an interactive, accessible interface using React, Vite, React Router, Firebase, and MediaPipe

Unite (Club / Committee Management App)

2026

<https://github.com/FlaviaRodrigues-05/Unite>

Designed a mobile application for managing club and committee activities using Flutter, Firebase Authentication, Cloud Firestore, and Figma

Find My Brew (Cafe Finder Website)

2025

<https://flaviarodrigues-05.github.io/Find-My-Brew/>

Built a web application to help users discover and locate nearby cafes, using Vanilla JavaScript, HTML, and CSS
